

## Expression of Interest for Trail Clearing Crews

West Chilcotin Forest Products Ltd has been awarded a contract to clear trails within the Anahim Lake area. We expect that we will be awarded future contracts for trail clearing on the Grease Trail in the next few weeks.

We are currently seeking input from community members on trails that they would like to have cleared. If you would like to have input please contact Leslie Witt as she is allowing people to come into the Ulkatcho First Nations Administration Building and put suggested trails on a map. She has allotted two sessions from one pm to three pm May 12 and 13. Please contact her if you would like to book a fifteen minute time frame.

With the information we will develop a list of suggested trails and they will be presented to Chief and Council and the Elders Committee for endorsement and final approval.

WCFP is accepting expressions of Interest for Contractors that would like to be involved with this project. Please submit your company name and proof of insurance and equipment list to be considered. Equipment required will be pickups, quads, and power saws.

Please send by email to Steve James at [sjames@chilcotinfp.ca](mailto:sjames@chilcotinfp.ca) or submit your Expression of Interest to Liz at the Band office by May 22 at 4:00 pm.
